“The Circuit Trainer has improved our overall team quickness.”

**Coach Pat Murphy**  
*Monroe, WI Basketball*

The Circuit Trainer is designed for sports-specific training and conditioning. It's a portable, dynamic 3-D training device which enables the entire team to train at one time.

Improves first-step quickness, balance and teamwork. Condition and strengthen upper and lower body as well as core. Great for groups of 4 to 14. Includes 1 – 6" circular carabiner, 4 – work stations (10 foot, R2 resistance cables), 4 – cardio belts and 4 – wrist safety straps.

### What does it train

- Trains and conditions upper and lower body, as well as core.
- Develops first step quickness and unlimited movement patterns (proprioception).

### Advantages

- Adjustable and adaptable for small groups of 3 to large groups of 8 or more.
- The Circuit Trainer comes complete with:
- Eight work stations (each with one 8' R2 resistance C Band with foam cushion handles)
- Eight attachments loops
- Instruction book and video by John Ditter, M.S., Exercise Physiologist

The image shows a screenshot of a web browser window titled "Shipping Form". The browser's address bar displays a file path: `file:///Users/chriscoyier/Dropbox/Conferences`. To the right of the address bar is a search bar with the text "Google" and a "1P" tab indicator. The main content area of the browser contains a form titled "Checkout - Step 1 / 4". The form includes three input fields: "First Name:", "Last Name:", and "Shipping Choice:". The "Shipping Choice:" field is a dropdown menu currently set to "Standard", followed by a green button with a white question mark. Below these fields is a "Submit" button.

- Top priority: it doesn't affect the normal page load time.

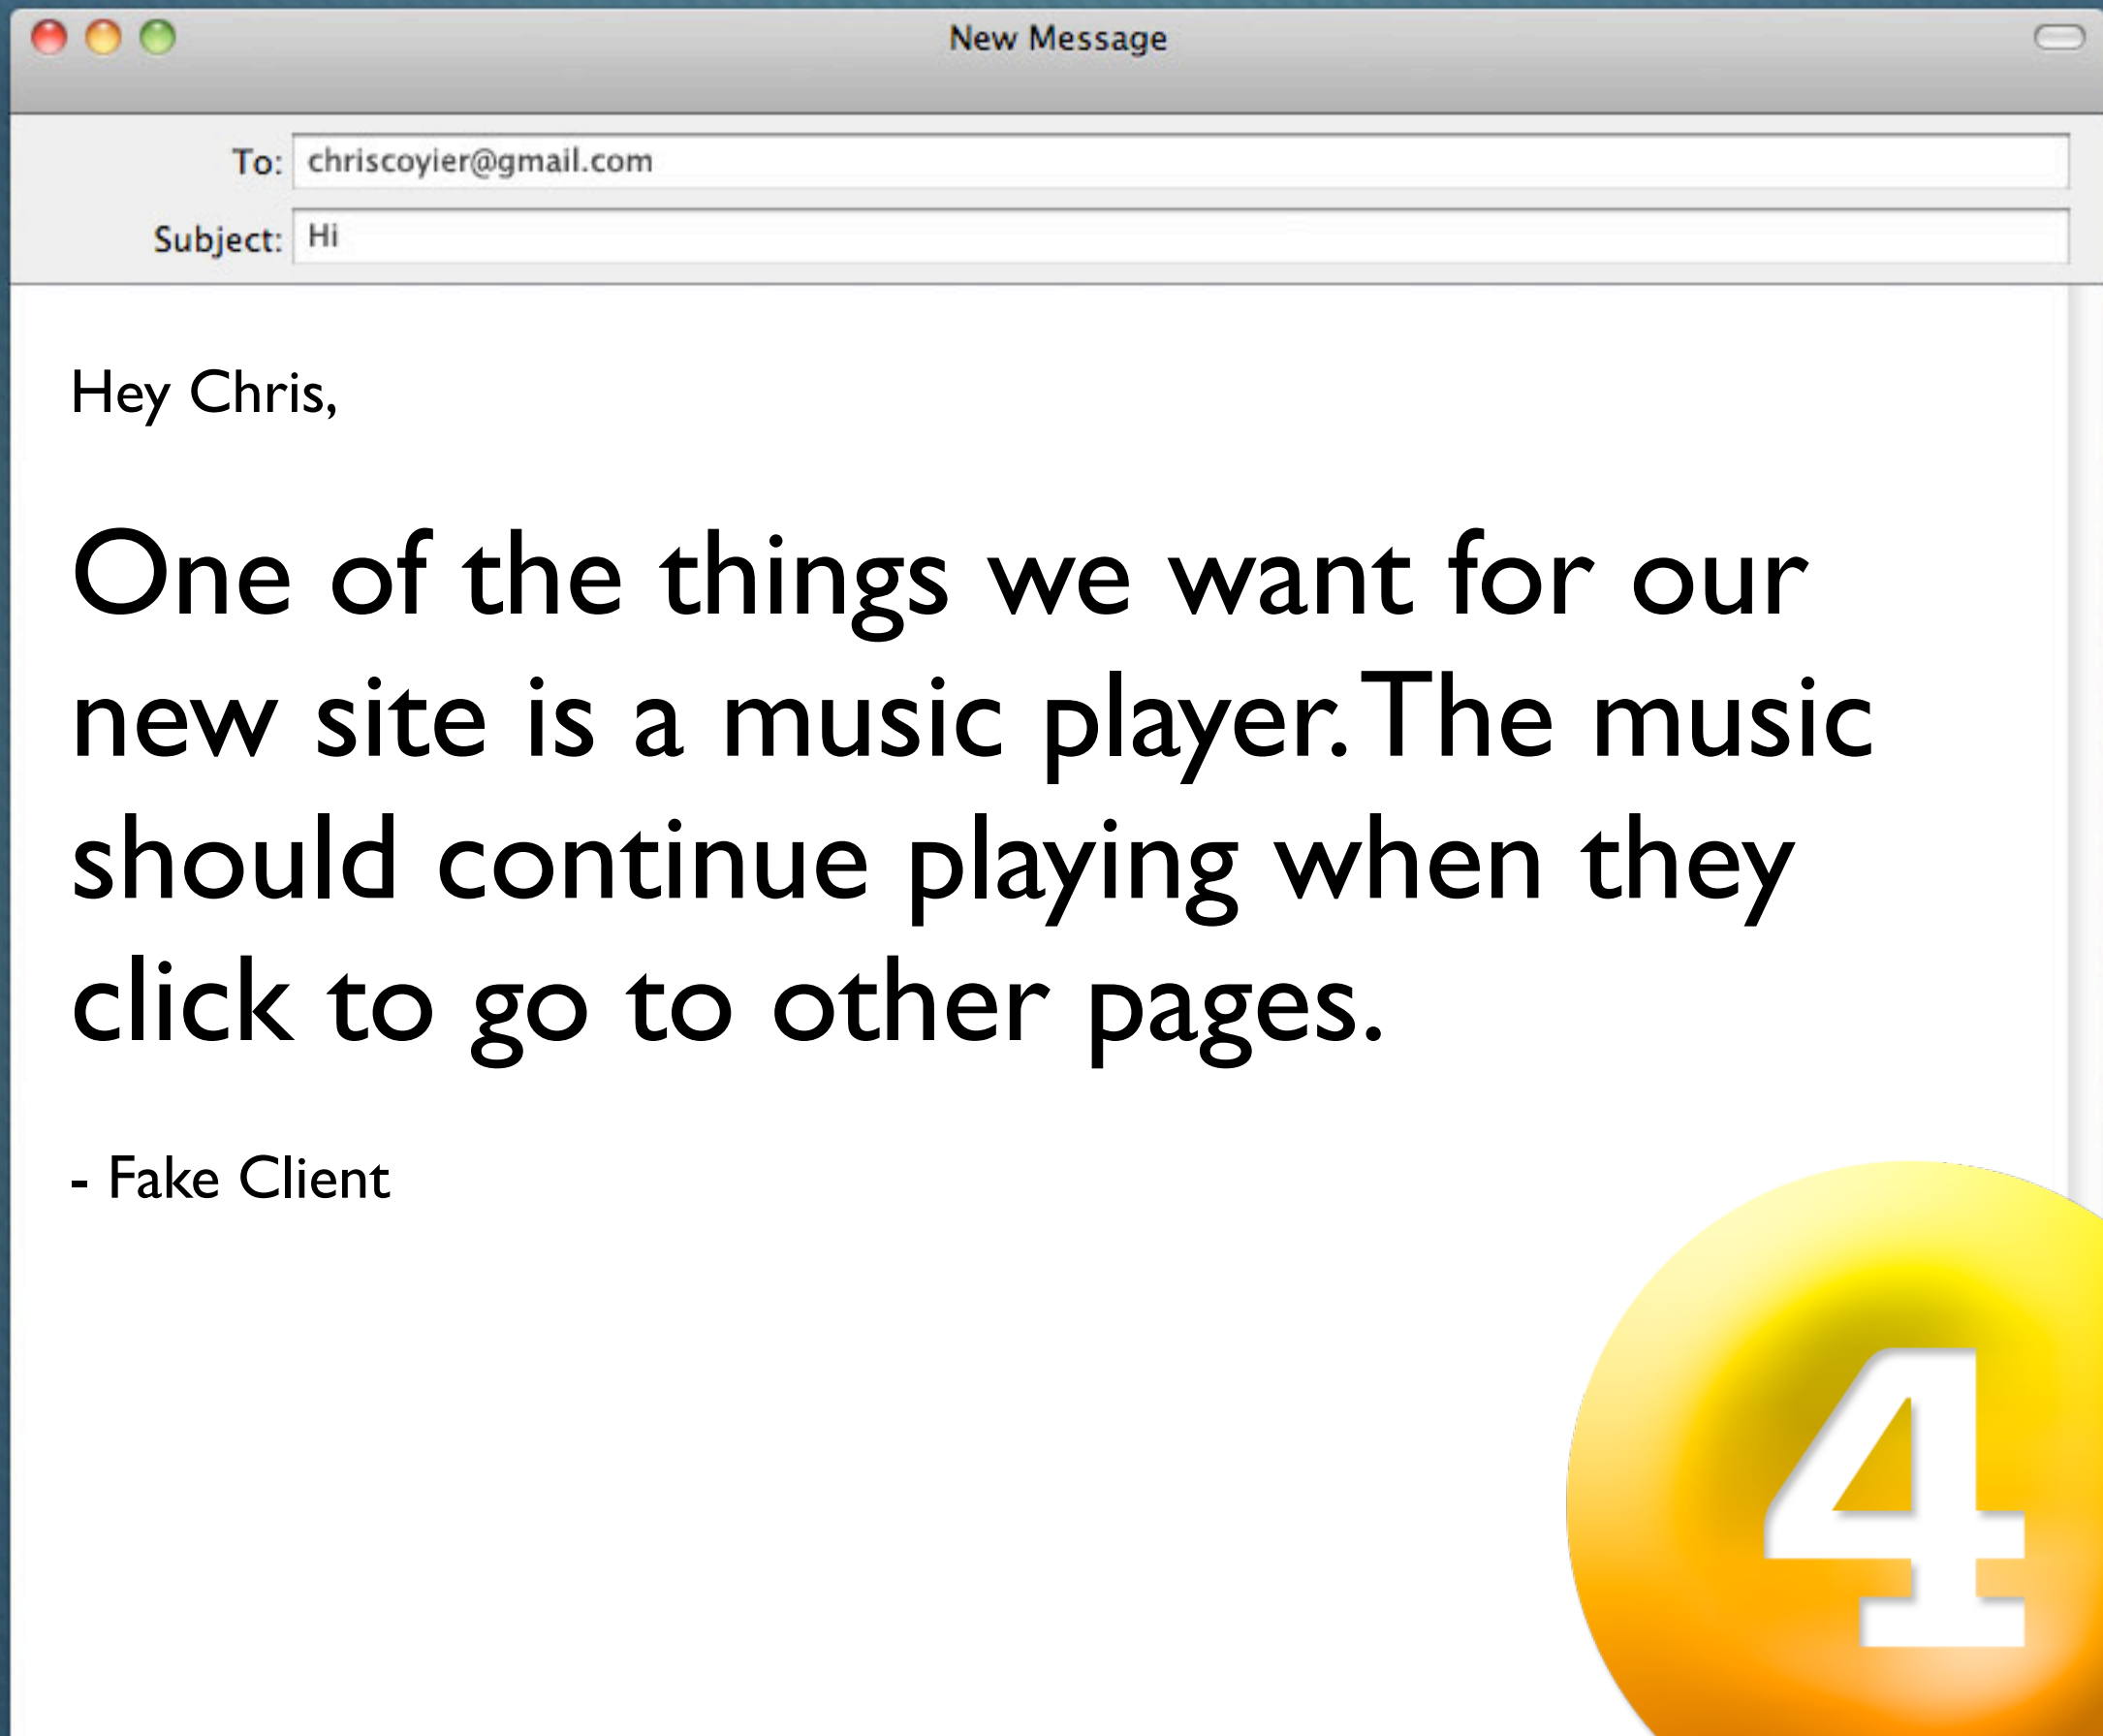

*(You don't want to rely on the Twitter API for your site to load)*

- Only append (entire area) to page upon success
- Only showing non-replies
- “Tweetify” (or @Anywhere)

To: chriscoyier@gmail.com

Subject: Hi

Hey Chris,

One of the things we want for our new site is a music player. The music should continue playing when they click to go to other pages.

- Fake Client

4

- Music will stop on a page load, there is no way around it.
- Solution: do not reload the page
- Bad solutions: Frames, Flash, Pop-up Windows
- Small site = content on one page, animate  
Large site = AJAX load other pages
